

# SAGATHIYA JAYDEEP

## Front End Developer

☎ +91 8160077013   @ sagathiyajaydeep66@gmail.com   🔗 [LinkedIn](#)   🔗 [GitHub](#)   📍 Surat-Gujarat

## SUMMARY

Front-End Developer with a keen eye for UI/UX, skilled in building modern, responsive, and performance-optimized web applications using React.js and other web technologies. Experienced in translating complex ideas into user-friendly interfaces, collaborating in agile teams, and integrating APIs for real-time experiences. Passionate about clean code, design systems, and staying updated with the latest trends — ready to bring ideas to life with precision and creativity.

## EDUCATION

### Bachelor of Computer Application (B.C.A) - 8.7 CGPA

#### Maharaja Krishnakumarsinhji Bhavnagar University

📅 06/2021 - 04/2024   📍 Palitana - Bhavnagar

- Developed a solid foundation in computer science with a focus on programming, web technologies, databases, and web development.
- Built a strong programming foundation through practical exposure to C, C++, HTML, CSS, and JavaScript, while also exploring core concepts of Java, ASP.NET, Oracle, and MySQL.

### H.S.C - Commerce Stream

#### Sunrise Higher Secondary School

📅 06/2020 - 05/2021   📍 Palitana - Bhavnagar

- Focused on subjects such as Accountancy, Business Studies, and Economics, which helped build a strong analytical and logical foundation.

## EXPERIENCE

### Webflow Developer - Intern

#### Koderead Solutions: Mobile app

📅 07/2024 - 09/2024   📍 Surat, Gujarat

- Transformed static Figma designs into visually stunning, interactive websites using Webflow, enhancing brand visibility and user experience.
- Developed fully responsive landing pages with advanced animations, CMS collections, and Interactions, increasing user engagement by 40%.
- Optimized Webflow projects for SEO, accessibility, and speed, achieving smooth performance across all browsers and devices.
- Delivered projects ahead of deadlines while maintaining design consistency and cross-platform stability.
- **Key Tech** : Webflow, Figma, CMS Collections, JavaScript, HTML5, CSS3, Animations, Interactions.

### React Developer - Intern

#### Lambuji Tours

📅 05/2024 - 07/2024   📍 Surat, Gujarat

- Worked on a Tour Management Platform using React.js, enhancing the user engagement and their visa booking process.
- Engineered real-time data handling through Axios + RESTful API integration, delivering seamless user interactions and live updates.
- Leveraged component-based architecture for scalable, maintainable code with enhanced performance.
- Implemented responsive design principles to ensure 100% mobile and cross-browser compatibility.
- Optimized load times and UI responsiveness using React hooks, lazy loading, and modular code splitting.
- Collaborated with backend developers to connect frontend with dynamic data via RESTful APIs.
- **Key Tech** : React.js, JavaScript (ES6), Axios, Context API, HTML5, CSS3, Responsive Design, Figma, Ant Design.

# PROJECTS

## Interview-Portal

📅 02/2025 - 03/2025    📍 Surat

### "Code-to-Hire"

- Built a sleek, React-powered dashboard to help users organize interview questions by category and subcategory —without backend dependencies.
- Users can add, edit, delete, and manage questions easily through an intuitive UI built with Formik and Context API.
- Categorize questions into main categories and subcategories for better structure and access.
- Implemented real-time UI updates using React-Toastify, responsive layout, and a clean separation of logic and presentation for scalability.
- The dashboard offers a clear overview of your questions, categories, and subcategories, making it easy to manage and navigate through your content.
- Ensured a lightweight, frontend-only solution with fast load times and clear separation of concerns.
- **Tech Stack:** React.js, Formik, Axios, Context API, HTML5, CSS3, MUI

## ShoesHub - "The Solemate Store"

📅 04/2025 - 06/2025    📍 Surat

### "Find Your Perfect Pair"

- Built a complete, responsive eCommerce web app from scratch using React.js and Tailwind CSS, enhanced with modern UI components from MUI and Ant Design.
- Engineered an intelligent filtering system to sort products by category, wishlist items and feedback, enabling faster product discovery and better UX.
- Implemented complete cart and checkout flow with form validation via Formik and seamless API integration using Axios.
- Created a dedicated Admin Panel to manage product management, categories, users Feedbacks, orders status and authentication-protected routes.
- Enhanced the user journey with animated transitions, real-time updates, and a polished, mobile-first UI for a premium shopping feel.
- **Tech Stack:** React.js, Tailwind CSS, Formik, Axios, React Router, MUI, Ant Design, Postman, Figma Design.
